The wire penetrated the eye ball and destroyed the sight. Mr. Masters had been having trouble with the other eye for some time and can only distinguish objects at a distance of six feet.

**WILCOX DEPARTMENT STORE**

**THE STORE THAT SELLS WOOLTEX.**

**Early spring fashions are most cleverly portrayed in these Wooltex Suits.**

Many women have already asked to see the new spring fashions. This early showing is a splendid collection of desirable models, all of which correctly portray the new modes.

You know already that spring fashions are to be very different. But until you see them, you cannot realize how distinctively new and charming they really are.

In these Wooltex suits you will see just what style features are authoritative—the youthful silhouette, the wing-like flare, the clever new plaits, the bell sleeves, the new skirts.

Wooltex suits and coats embody such skillful variations of the season's principal style features. Then, too, their designers have added just the right ornamentation—embroidered silk or linen collars, touches of braid and silk trimmings, all so artistic and harmonious. Harmony of design is but one of the many pleasing features of Wooltex garments.

As to the tailoring, no point about our highest grade Wooltex suits and coats would be better tailored by a custom tailor, yet they are ready for you to slip on for immediate wear.

All are most reasonably priced.

**A Very Dressy Model.**  
Only the most expert skill in designing and tailoring makes possible a suit of such stylish character as this new Wooltex model. Jacket has five short plaits each side of front and back, the plaits embroidered in oval design; embroidered faille collar; bell sleeves. Wide skirt, shirred at waist. In finest gabardines, etc. (No. 4970.)

**Modish Street Suit.**  
A smartly tailored model for misses and young women. Jacket has novel side effects; silk faille collar; rippling plaits below waist; turn-back cuffs. Wide skirt is shirred at sides. A Wooltex model of marked stylishness and superiority of fabrics and tailoring. (No. 5860.)

**Suits, \$25.00 to \$35.00**

**Coats, \$15.00 to \$25.00**

**743 AUTOMOBILE LICENSES ISSUED IN THIS COUNTY.**

From figures compiled by State Secretary Pool 58,140 automobile licenses were issued in Nebraska during 1915, an increase of 18,542 over 1914.

Lincoln County is credited with 743 licenses in 1915, as compared with 444 in 1914, an increase of 299. The population of Lincoln county in 1910 was 15,684, today it is not less than 17,000. It is therefore evident that there is one automobile for each twenty-three people in the county.

The number of cars in Dawson county, which in 1910 had 309 more population than Lincoln county, is 594. Keith county has 121, Deuel county 106 and Cheyenne county 336. Dawson county has a car for each twenty-eight people, Keith one for each thirty, and Cheyenne one for each fifteen. In proportion to population Cheyenne has more cars than any other western county.

Will Fablinger had a hearing before the board of insanity Tuesday forenoon and the same evening was taken to the Hastings asylum by Deputy Sheriff Wilson and a brother of the demented man. Fablinger was very violent, and it was necessary to strap his hands to his body, and even then it was difficult for the two men to handle him.

Mrs. Mary Dunn left Tuesday evening for Green River to visit her sister Mrs. Fisher for several weeks. Before returning she will visit relatives in Ogalala and Rawlins.

Miss Belle Harper returned Wednesday from Moorefield where she visited her parents for several days.

**PLAN A WATERWAY 3,000 MILES LONG.**

Washington, D. C.—The greatest inland waterway in the world, extending 3,000 miles from New York by way of Buffalo, Chicago and St. Louis to the Gulf of Mexico, is planned in legislation just submitted to congress by Senator Gore, of Oklahoma. The waterway would connect also with all the great tributaries of the Mississippi river and the gulf of St. Lawrence.

Of the total route, the Hudson river would constitute 212 miles with a depth of 12 feet. This length can be finished and ready for use in 1917 at a cost of less than \$2,000,000, according to Senator Gore. The Erie canal would compose 365 miles of the route, not including the Lake Champlain and Lake Ontario branches. This can be completed and ready for use in 1918, Senator Gore says.

The Great Lakes would add \$99 miles to the route with a minimum depth of 20 feet. The Chicago river and Chicago Drainage canal are already available for use from Chicago to Lockport with a depth of 21 feet. The state of Illinois has authorized a bond issue of \$5,000,000 to connect the Chicago drainage canal with the Illinois river at Utica, a distance of about 60 miles, with an eight foot channel.

Grant Hughes, of Glenns Ferry, Ida., formerly of this city, is spending a week here with local friends. He states that they are well pleased with their new home in Idaho.

Day Sewing. Work guaranteed. Phone Red 368. 3-4
